§ 602.1 Purpose and scope.

§ 602.2 Applicability.

DOE means the United States Department of Energy.

Education/Training means support for education or related activities for an individual or organization that will enhance educational levels and skills, in particular, scientific or technical areas of interest to DOE.

Epidemiology and Other Health Studies means research pertaining to potential health effects resulting from DOE or predecessor agency operations or from any aspect of energy production, transmission, or use (including electromagnetic fields) in the United States and abroad. Related systems or activities to enhance these areas, as well as other program areas that may be described by notice published in the FEDERAL REGISTER, are also included.

§ 602.4 Deviations.

(a) Single-case deviations from this part may be authorized in writing by the DOE Chief Health, Safety and Security Officer, the Head of the Contracting Activity, or their designees, upon the written request of DOE staff, an applicant for award, or a recipient. A request from an applicant or a recipient must be submitted to or through the cognizant contracting officer.

(b) Whenever a proposed deviation from this part would be a deviation from 10 CFR part 600, the deviation must also be authorized in accordance with the procedures prescribed in that part.
